EXPERIENCE

Operations Manager (Franchise)

The Professional Couriers Pvt. Ltd. — Mulanthuruthy Hub

Sept 2025 – Present

- Manage hub logistics, staff coordination, billing, and delivery operations.

Software Testing Trainee

Travidux Technologies Pvt Ltd

Nov 2025

- Completed structured Software Testing training in SDLC/STLC, manual test case design, functional & regression testing, Selenium WebDriver (TestNG) automation, and defect lifecycle management.

Junior Data Scientist (Training + Internship)

Soften Technologies, India

Apr 2022 – Mar 2023

- Built ML/DL solutions in Python and delivered insights through Tableau and NLP methods.

Digital Marketing Executive (Training + Internship)

Hatchex Solutions Pvt Ltd

Jul 2021 – Feb 2022

- Executed SEO, paid ads, and analytics-driven campaigns to improve web performance.

PROJECTS & PUBLICATIONS

EV Energy Consumption Prediction using Transformers

IEEE TII Publication

2025

- Developed deep learning models using TabTransformer, TabNet, and BERT embeddings for EV energy consumption prediction.
- Achieved MAE of 0.38 with 20% accuracy improvement using LightGBM and KMeans-based clustering.
- Performed hyperparameter tuning using Bayesian Optimization (Optuna).
- Tech Stack:** Python, TabNet, TabTransformer, LightGBM, BERT, Optuna, Scikit-learn.
- [View Publication](#)

Bilingual Image Captioning (English & Malayalam)

CONIT 2025 Conference

2025

- Built ResNet-18 + Transformer-based bilingual image captioning system using Malayalam Visual Genome dataset (29K+ samples).
- Implemented multilingual tokenization and greedy decoding.
- Evaluated model performance using BLEU, METEOR, and ROUGE-L metrics.
- Tech Stack:** PyTorch, ResNet-18, Transformers, Multilingual NLP, Evaluation Metrics.

E-commerce Automation Framework

Selenium WebDriver + TestNG

2025

- Automated login, product search, cart, and checkout modules.
- Implemented reusable methods, explicit waits, and assertions.
- Performed cross-browser testing and regression execution.

TMCART Web Application Testing

Manual + Automation Testing

2025

- Designed detailed test scenarios and test cases for UI workflows.
- Conducted regression testing across builds.
- Tools:** Excel, Selenium, Postman.

CERTIFICATIONS

100 Days of Code: The Complete Python Pro Bootcamp

Udemy — Dr. Angela Yu

2026

Certification in Software Testing

Tech Masters Software Services Pvt Ltd, Tvm

2022

EDUCATION

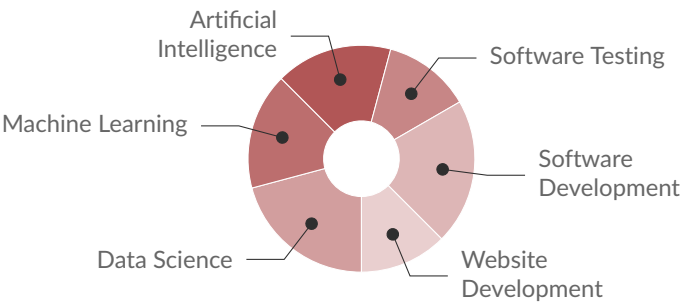

M.Tech in Data Science
Amrita Vishwa Vidyapeetham, Coimbatore
2023 - 2025
CGPA: 7.35

B.Tech in Computer Science
Toch Institute of Science and Technology
2016 - 2020
CGPA: 6.32

12th Grade (Science)
KPMHSS, Kerala
2014 - 2016
Percentage: 83%

10th Grade
Hail Mary EMRHSS, Kerala
2013 - 2014
Percentage: 99%

CORE FOCUS AREAS

STRENGTHS

- Python, C, Machine Learning
 - Data Preprocessing, Data Analysis
 - Data Visualization
 - Website Development, Software Testing
 - Manual & Automation Testing
 - Practical Thinker, Fast Learner
 - Eye for Detail
 - Motivator & Leader, Hardworking
 - Expert Research Skills
 - AI Prompt Engineering
